PROTECTIVE COVENANTS

- 1 These covenants are to run with the land and shall be binding on all parties and all persons claiming under them for a period of twenty-five years from the date these covenants are recorded, after which time said covenants shall be automatically extended for successive periods of ten years unless an instrument signed by a majority of the then owners of the lots has recorded agreeing to change said covenants in whole or in part.
- 2 Enforcement shall be by proceedings at law in equity against any person or persons violating or attempting to violate any covenant either to restrain violation or to recover damages.
- 3 Invalidity of any one of these covenants, by judgment or by court order shall in no wise affect any of the provisions which shall remain in full force and effect.
- 4 No lot shall be used except for residential purposes. No building shall be erected, altered, placed or permitted to remain on any lot other than one detached single-family dwelling not to exceed two and one-half stories in height and a private garage for not more than two cars.
- 5 No dwelling shall be permitted on any lot at a cost of less than \$8,000, based on cost levels prevailing on the date these covenants are recorded, it being the intention and purpose of this to assure that all dwellings shall be of equality of workmanship and materials substantially the same or better than that which can be produced on the date these covenants are recorded at the minimum cost stated herein for the minimum permitted dwelling size. The ground floor area of the main structure, exclusive of one-story open porches and garages, shall not be less than 660 square feet for a one-story dwelling, nor less than 660 square feet for a dwelling of more than one story.
- 6 No building shall be located on any lot nearer to the front lot line, or nearer to the side street line than the minimum building setback lines shown on the record plat. In any event no building shall be located on any lot nearer than thirty feet to the front lot line, or nearer than thirty feet to any side street line. No building first or second floor elevation shall be less than 18 inches above the center of street finished grade in front of building. No building shall be located nearer than five feet to an interior lot line, except that no side yard shall be required for a garage or other permitted accessory building located forty-five feet or more from the minimum building setback line. No building shall be located on any lot nearer than five feet to the rear lot line. For the purposes of this covenant, guest steps and open porches shall not be considered as a part of a building, provided, however, that this shall not be construed to permit any portion of a building on a lot to encroach upon another lot.
- 7 Easements for installation and maintenance of utilities and drainage facilities are reserved as shown on the recorded plat and over the rear five feet of each lot.
- 8 No noxious or offensive activity shall be carried on upon any lot, nor shall anything be done thereon which may be or may become an annoyance or nuisance to the neighborhood.
- 9 No structure of a temporary character, trailer, basement, tent, shack, garage, or other outbuilding shall be used on any lot at any time as a residence either temporarily or permanently.
- 10 No sign of any kind shall be displayed to the public view on any lot except one professional sign of not more than 600 square feet, one sign of not more than five square feet advertising the property for sale or rent, or signs used by a builder to advertise the property during the construction and sales period.
- 11 No animals, livestock or poultry of any kind shall be raised, bred or kept on any lot, except that dogs, cats or other household pets may be kept provided that they are not kept, bred or maintained for any commercial purpose.
- 12 No dwelling shall be erected or placed on any lot having a width of less than fifty feet at the minimum building setback line, nor shall any dwelling be erected or placed on any lot having an area of less than six thousand square feet.
