Prosecutor assists local businesses collect payment with new 'bad check' policy

In an effort to assist local businesses who receive bad checks that bounce, Hocking County Prosecutor Kyle C. Henderson is working towards educating business owners on how to protect themselves in order to minimize the likelihood of becoming a victim of crime, as well as learn about the steps needed to be taken for a successful prosecution against an offender.

This Web Site Contains many types of maps and data for Hocking County, Ohio. To access this site, click on "Access maps via web" at the bottom of this screen.

AutoCad Files (.dwg) - will be more detailed and up-to-date but will require software for reading .dwg files (see free software links at bottom of this page).

Esri Files (.shp) - require software which can be downloaded from the internet for free.

Mr. Sid Files (.sid) - require software which can be downloaded from the internet for free.

These files (.dwg, .shp, .sid) will require you to download or copy and paste them to your computer before viewing with the appropriate software.

Adobe Files (.pdf) - can be viewed on most computers without additional software.

Scanned Image Files (.tiff and .jpg) - can be viewed on most computers without additional software.

Text Files (.doc, .xls) - can be viewed on most computers without additional software.

These files (.pdf, .tiff, .jpg, .doc, .xls) you may be able to access by just double clicking on the file you need if not you will need to download or copy and paste them to your computer before viewing with the appropriate software.

File sizes and file download times will vary and access may be slow. If files are downloaded to your computer, then you will not need to rely on internet speed to access your copy. Some files will be updated weekly or yearly, while other files are archived files of older records. The dates shown on folders and files will let you know when they were created or last updated.

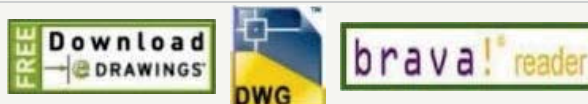

Additional files may be added to the site as they become available or the need arises. After installing the appropriate software you can view and or download from this Web Site as often as you like. This is a free service to the public and we want this site to be helpful, so pass this information on to whoever may have interest. Please let us know if you require any assistance accessing this site and make us aware of any problems, questions or comments you may have.
