PUBLIC COMMENT

Mike Nihiser commented, inquiring as to why the EMS Director was placed on admin leave, costing extra money for 2 administrators. Commissioner D'Onofrio expressed that the county will not endure any additional costs because the week to week expenditures will remain the same, with those two salaries remaining the same. There was no vote to up her salary, just to shift her job title for the time being. The reasoning was privileged communication with possible litigation and determining the status of compensation during leave was advised by the County's attorney.

Mike Nihiser discussed that with the upcoming regulations being considered for approval, it is a good time to address some issues with HHTA; such as conflict of interest with some on the board. Nihiser expressed concern that the first quarter HHTA report has not been submitted or presented to the board of Commissioners yet, seeing as it is now May. Nihiser suggested doing something until the report is turned in, like holding back lodging money. Nihiser thanked the Commissioners for hearing out his concerns.

Jamie Riggs asked for clarification on if drug rehab and court cost budgets are still an ongoing issue. Commissioner Ogle replied that drug court mostly has outside funding sources, and perhaps they were using it up before the end of their year. Riggs was recalling that previous discussion about the new facility and making sure additional income was coming in to make better flow and go back out and help. Commissioner Ogle replied that discussion was about the new jail. Commissioner D'Onofrio added that with any drug treatment plan across the

state or country, it is hard to predict the intake of what will come in week to week, week to week, month to month. It varies widely, with no prediction. Jamie Riggs
