

Good morning,

Hocking County was recently awarded a Pre-Disaster Mitigation Grant to update our County's Hazard Mitigation Plan. This update is required by FEMA every five years to remain eligible for funding for projects. Municipalities, police and fire departments, schools, businesses, and the general public may receive funding for any mitigation strategy found in the approved and adopted plan update. Community input is critical to this plan's success (and the FEMA approval process). As such, we are asking for your participation in the planning process at the following two sets of meetings.

These meetings will be offered in multiple formats that allow stakeholders and the public to participate however they are available and comfortable. These meeting formats will include live in-person meetings, recorded presentations, and paper and digital surveys. If you are unable to attend, please let us know and we will work with you to obtain participation in other formats.

### **Prior to Meeting #1, we have two action items for your completion:**

1. **Review the attached items**, which describe the goal of the hazard mitigation planning process, who is involved in updating the plan, why the plan needs to be updated, and an overview of the planning process and schedule.
2. **Reserve the dates for the first and second round of meetings:**
  - a. **Meeting 1** - To be held on March 14, 2024
    - i. 10:00 A.M. at 52 East 2<sup>nd</sup> St. Logan, Ohio 43138 and,
    - ii. 6:00 P.M. at 52 East 2<sup>nd</sup> St. Logan, Ohio 43138
  - b. **Meeting 2** - To be held on May 16, 2024
    - i. 10:00 A.M. at 52 East 2<sup>nd</sup> St. Logan, Ohio 43138 and,
    - ii. 6:00 P.M. at 52 East 2<sup>nd</sup> St. Logan, Ohio 43138
3. **Complete the Goals & Hazard Priority Survey** prior to Meeting #1 – we will send a link to this ahead of the meeting.

Many of you may wonder why you have been asked to participate in this process. Updating the Hazard Mitigation Plan every five years allows us to identify opportunities to lessen the potential impacts from disasters and also allows us to evaluate projects that have been completed during the past five-year cycle. All possible projects are identified by YOU, our community leaders. Once our plan has gone through the FEMA approval process and has been adopted locally, we can apply for grant funding that could potentially cover 75% of the costs associated with those projects.

If you would like to designate another person to participate in the plan update process on your behalf, please provide their name and contact information to me. Let us know if you have any questions.

Sincerely,

**Mark Edgar**, EMA Director  
Hocking County Emergency Management Agency
